

LEARN FROM THE EXPERTS

This exceptional educational program includes outstanding local and statewide experts and local leaders sharing the latest practical planning information.

“But we haven’t had time to view the Planners Moments videos we already have!”

Some subscribing communities may not get to all 12 videos during the year, and some editions might not be as relevant to their situation. **That’s fine, there are no expectations that you watch every DVD. Choose the ones that are most interesting to your planning commission, the rest will always be available!**
